

[Darpan Bansal, MD FACC](#)

Darpan Bansal, MD FACC, is a board-certified cardiologist specializing in cardiovascular diseases and interventional cardiology, with additional certifications in nuclear cardiology and echocardiography. For more than a decade, Dr. Bansal has provided evidence-based, personalized care that empowers patients to make informed decisions about their health.

A graduate of the All India Institute of Medical Sciences in New Delhi, India, Dr. Bansal completed his interventional cardiology fellowship at Emory University in Atlanta, Georgia. Since joining Baltimore Heart Associates in 2010, he has served as vice president, overseeing clinical operations, strategic growth and patient care services.

Dr. Bansal's leadership extends beyond his practice. He serves on the ABIM Governance Board and the Interventional Cardiology Approval Committee, contributing to setting care standards for board-certified physicians. He also chairs the Maryland Chapter of the American College of Cardiology's Carrier Advisory Committee, advocating for policies that promote access to high-quality, evidence-based cardiovascular care. Through these roles, Dr. Bansal is actively involved in improving healthcare delivery, reducing administrative burdens and enhancing patient and provider well-being.

Recognized as a "Top Doc of Baltimore" by Baltimore Magazine for multiple years, Dr. Bansal is widely respected for his clinical excellence and compassionate approach. He also teaches medical students and residents at Sinai Hospital of Baltimore, sharing his expertise to shape the next generation of physicians.

Dr. Bansal's dedication to advocacy, innovation and collaboration reflects his commitment to advancing the field of cardiology and improving outcomes for his patients and the broader community.
